ROADWAY OF MOLASSES

That is the Material Used at the Sugar Factory.

IT IS A NEW EXPERIMENT.

MAKES A SPLENDID THOROUGFARE

Manager Cutler Says the Sugar Sugar Now Than Before-Reservoir and Canal of the Mt. Nebo Irrigation Company Are Nearly Cannan Cattle Has Just Been

It is not generally known, but the lar inspections. Utah Sugar company has inaugurated a very novel use for the waste product from the works at Lehi, known as byproduct, or molasses. Roads are actually being constructed with the sale syrups, which are valueless as sugar producers, the life having already been extracted. The molasses is used as a cement, the body of the road material being made up of fine gravel. This new method was first used on the road leading from the county road to the sugar factory and the travel over by Silver bars. 672574
this thoroughfare since the opening of the Sugar season has demonstrated the suga the sugar factory and the travel over

52 Standard. 205
53 Control of the present seems to be just sufficient potash salts in the molasses to give it the necessary cementing qualities and as a result the road soon becomes as pavement.

This making of roads and walks with refuse syrups from sugar factories has also been successfully tried in California. It is not at all unlikely that at the end of the present season the company will make more improvements on the roads leading to the factory. At first the molasses showed a tendency to occup through the gravel, but the application of an extra coating of gravel remedied this and made the road as smooth as a floor and as hard as pavement.

We are making better sugar this fall at the factory than has ever before been turned out by the company. Southern Pac. 21

The attorney for the Fall Brock district in presenting the appeal to the supreme court will be John F. Dillon, of New York, A. L. Rhodes, of San Francisco and Altkee and Smith, of San Diezo.

The parties opposed to the Wright act and the members of the committee organized to defeat it are trying to raise funds to employ Joseph H. Choate, of New York, to present their side.

PROBABLY TRUE.

A Survivor of the Greeley Expedition Discusses the Bones Story.

RED, Cal. Sopt. 21.—Maurice Counell, one of the survivors of the Greeley expedition, who was in charge of the weather bureau office here, when shown the dispatch from St. Johns sating that the bones of one of his companions who died at Cape Sabine, were found by the Peary killed ten musk oxen, as stated in the dispatches, why he should run short of provisions for dogs and men. A musk ox on the voyage weighs, he says, 500 pounds dressed and len would give Peary 3,000 pounds of fresh frozen meat.

Nothing so distressing as a hacking

oming, which are claimed by the sheep men, cattle men and the Union Pacific railroad or those people who have pur-chased from the latter. Notwithstand-ing this silence, however, the feeling is the same and some few outbreaks have occurred recently. One sheepman have occurred recently. One sheepman allowed his flocks to range over land claimed by a purchaser from the railroad, and a suit was the result. It is understood a compromise is to be made. The wool growers claim the right to range over all land that has been unsurveyed and unappropriated, and their claims are contested by the stock men and railroad. Some sales are still being made by the company, but not many, although efforts are decing again made to reconcile the entire ing again made to reconcile the entire trouble.

Trade is Very Good. Superintendent Webber, of Zlon's Co- RICHARDS & RICHARDS. operative Mercantile institution, which

may be taken as the index to the trade of the territory, is the authority for the statement that there is a material im-provement in business throughout the entire district which is tributary to the great institution. The prospects for a handsome fall trade are excellent, he says, and what is equally as satisfactory, collections are good.

The Greatest Victory

of Them All!

Every race meet this season has resulted in a victory for Rambler, and the Labor Day meet was no exception to the rule. In fact, it was the greatest victory of them all. The Rambler won about everything there was to win.

These are jie straws that show "the way the wind blows." If you want a first-class wheel, a tast wheel, one that is built light and has true merit, buy a Hambler.

The winnings of the Rambles because of the rambles in the same of the Rambles.

built light and has true merit, buy a Hambler.

The winnings of the Rambler have not been confined to Utah. You probably have noticed in the daily papers the returns from the mest at Grand Juriction. Colo., wherein Weller and Thatcher carried off the class B plums; and this was no small victory, as they rode in competition with Colorado's crack men. There were four prizes, valued at \$135. Dur Weller and Thatcher walked off with three of them, valued at \$135. leaving just a smell for their competitors. You ought to be satisfied by this time that the Rambler is the best wheel built. Come and see 'em.
